5. Review of T Hangar Rental Units

Dye mentioned that there are no vacancies in the T-Hangars.

6. Review of a potential private Hangar

Sosnowski shared his desire to construct a private hangar on the field. However, due to unground utility lines and the north/south grass runway, the only place a hangar can be built and be near new terminal is in where the old vacant office building is and the deteriorating picnic porch. The board spent time discussing this project and was generally supportive of this investment at the airport.

Motion by Millin, supported by Apol to recommend to City Council that they allow for the construction of the new hangar as proposed and that all costs for removal of the vacant office building, the removal of the picnic porch, and any other costs be fully covered by Bernie Sosnowski. **Motion Carried, 7-0**
